

SOLLER DESIGN GROUP

DESIGNING
MEANINGFUL SPACES
FOR MODERN LIVING.

DESIGNED IN SPAIN

An invitation-led network for architects, designers, estate agents and property professionals shaping premium outdoor living spaces.

ABOUT US

SAXUN by SOLLER has been introduced to the UK as a more exclusive, design-led outdoor living range.

Rather than being sold as a general retail product, Saxun is available through Soller and selected professional partners, including architects, designers and project-led specialists.

Saxun is for homeowners who want something more considered than a standard retail awning or off-the-shelf garden product.

Specified for selected projects, it gives your home an outdoor living system that feels distinctive, personal and quietly exclusive.

**BUILT AROUND
SPECIFICATION,
DESIGN CONTROL,
PROJECT SUPPORT
AND LONG-TERM
VALUE.**

OUR MISSION

To help homeowners, architects and designers create outdoor spaces that feel like a natural extension of the home.

Our systems are designed to improve comfort, control sunlight, protect glazing and make terraces, gardens and external areas more usable throughout the year.

OUR VISION:

Creating timeless outdoor living spaces that combine purpose, elegance, comfort and thoughtful European design.

**OUR WORK IS GROUNDED IN SIX
CORE PRINCIPLES:**

- Bespoke Specification
- Architectural Integration
- Comfort and Usability
- European Engineering
- Material and Finish
- Long-Term Support

Outdoor living is more than shade. It is a relationship between architecture, light, comfort and the way people use their homes.

**EACH PROJECT IS A
COLLABORATION
BETWEEN DESIGN,
FUNCTION AND
EVERYDAY LIVING.**

DESIGN PHILOSOPHY

- WHAT WE OFFER:**
- Retractable Awnings
 - Bioclimatic Pergolas
 - Fabric Pergola Systems
 - ZIP Screens
 - Solar Shading Systems
 - Project Consultation

**ALL SYSTEMS ARE
SPECIFIED TO SUIT
EACH PROJECT'S
STYLE, SCALE,
POSITION AND
PURPOSE.**

01 – CONSULTATION

Understanding the property, the client's goals, the outdoor space and how the area will be used.

03 – SURVEY & PRICING

Confirming practical details, preparing a clear proposal and supporting the client or project partner with the next steps.

02 – SPECIFICATION

Selecting the right system, size, colour, fabric, control options and fixing approach for the project.

04 – DELIVERY

Coordinating supply, installation and aftercare so the finished system performs as intended.

PROCESS OVERVIEW

Private Terraces — bespoke awnings and pergolas designed to create more comfortable outdoor living areas.

Large Glazing — solar shading systems that help reduce heat gain while protecting the appearance of the property.

Design-Led Projects — coordinated pergolas, ZIP screens and shading systems for homes where finish and detail matter.

PROJECT OPTIONS

CONTACT

Let's create a more considered outdoor space.

Whether you are planning a home extension, garden redesign, terrace upgrade or architectural project, SAXUN by SOLLER can support the shading and outdoor living element from specification through to installation.
